

Sprint 4 Report

Datum

12/02/24

Actions to Stop Doing:

In the future make sure when merging we're not just accepting incoming. Examine the merge more thoroughly.

Actions to Start Doing:

Push code more often in the future. Not pushing even incomplete code to a known branch can bottleneck other developers. Make sure that everyone's on the same page with what they're doing, and help out as needed.

Actions to Keep Doing:

Maintain consistency in standup meetings. We got better and more efficient at those during this sprint.

Work Completed/Not Completed:

Chatbot with AI functionality was completed.

Finalized CSS and frontend.

Implemented tasks suggested by TA.

Work Completion Rate:

Specific User Stories Completed -

Completed:

- As an employee, I want to be able to access the knowledge base from the web. This will allow me to view the company's files from home or work or anywhere in the world. {21}
- As an employee, I want to access relevant information and clarify my understanding about certain documents in the knowledge base. {13}
 - Implement the existing RAG into the aiButton chatbot
- As an administrator, I want to have management access to all files in the database, in order to manage files created by multiple employees in my team. {5}

Not completed:

- Ensure chatbot can only see files you have access to
- 3 dot action menu for files in the list

Days in the Sprint:	14
User Stories Per day:	0.21
Story Points Completed:	34
Hours/Day:	2.2
